The Sinner Hearing.

Mr John Sinner and his two sons Philip and George appeared before Magistrate George B McLeod in the Edmonton police court, on Tuesday last, charged with that, between the first and 21st days of January, 1928, at or near Stony Plain, did unlawfully steal tamarac, spruce and popular trees of the value of at least \$25, the property of Frederik M Ulmer, then growing on the north half of section 36 Tp. 51 Rg. 28 west 4th Mer. in the said province, belonging to the said Frederik M Ulmer, contrary to the provisions of the Criminal Code of Canada.

The evidence only of the Complainant, Fred M. Ulmer, was taken; and this witness was put thru a severe cross-examination by the counsel for the defense; after which the accused were committed to stand their trial at the next court of competent jurisdiction. They were released on bail. McClung for the Crown; Van Allen for the defendants.

The local men who were supposed as witnesses were: John Urschel, Henry Hennig, Jacob Baron, August Zutz, and Corp. F G Moses, A. P. Police.

Tommy Shreeves Weds

A quiet wedding was solemnized at St Mark's church, Leduc, on Feb. 8, when Elizabeth Margaret (daughter of Mr and Mrs M Fowler, Edmonton) became the bride of Mr Thomas W Shreeves, of Jasper (only son of Mr and Mrs G W Shreeves of Leduc. Rev C F Cornish performed the ceremony. Miss Alice Fowler attended the bride, while Ray Thorne was best man.

LOCAL NEWS.

Mr J F W Ulmer and wife are leaving Saturday night for Vancouver, where they intend to reside.

Miss Mary Gamble left this week for Fallher, Peace River district, to resume her duties as teacher at the school there.

Gus Mintz was down from Mackay over the week-end.

Mr W J Wray is the new paying teller at the local branch of the Canadian Bank of Commerce. Mr Wray comes up from Empress, Alberta, and has quite a good record as an athlete.

Mr V. Pailer Sr. is said to have purchased a plot of 84 acres of land, adjoining Stony Plain to the West.

A meeting of the members of Stony Plain U.F.A. Local will be held Saturday next, Feb. 25.

Sommerfield & Mayes have received a large shipment of 1928 Chevrolet sedans and coaches, and these are now on view at their garage. An inspection of these fine cars indicates why they're called "bigger and better." The surprise is, how such fine autos can be sold at the new low prices.

Mr Glen Carmichael, who is teacher at the school near Telfordville, was a visitor at the home of his parents over the week-end. Glen is said to have purchased from the C. P. R. a half section of land opposite the Dneiper school-house.

If your eyes bother you, or you suffer from headaches, why not have your eyes attended to by an expert? M M Mecklenburg, eye specialist, will be in Stony Plain on Friday, March 9th.

A Thief Caught.

On Saturday afternoon Mr Hjalmar Svedia, a Swiss who intended to travel farther West, took his pack-sack down to the local Canadian National Ry. station and left it on the platform. On returning some time later he discovered it had been removed. On making an investigation he found that it had been picked up by a strange traveler who then headed for Edmonton.

Mr Svedin reported his loss to the police, and Corp. Moses got after the stealer with his car, and overtook him with the pack-sack, in front of the Luetic farm, near Spruce Grove.

On the car approaching him, the thief, who turned out to be the Frenchman Arman Noel, threw the pack-sack away and hid in the brush along the roadside. He was captured, taken back to Stony, given a preliminary hearing, and sent to the jail at Fort Saskatchewan awaiting trial at the next court of competent jurisdiction.

A Forward Step

The development and growth of Canada politically, economically, in commerce and finance, in products from its natural resources of the field, the forest, the mine, and the waters of the Dominion has, during the first sixty years of Confederation, been most gratifying. This is now fairly generally recognized. It is also the general belief that Canada is just entering upon a still greater era of expansion and development in many directions leading to a greater growth and larger prosperity.

The question, however, which, to an increasing extent, is calling for serious consideration is: What policies should be adopted and steps taken to insure that this future development shall proceed along lines that will result in building up a strong nation, and in such a way that maximum benefits from such development shall accrue to the whole people of the Dominion?

During the pioneer stage in any country's development it is inevitable that its people devote their energies largely to the production of primary articles, largely raw materials. But with increase in population, the provision of adequate means of transportation, and the accumulation of wealth, a country should move forward in the work of not only producing such raw materials in increasing quantities but in utilizing them in the manufacture of finished articles.

It is important that crude methods in production of raw materials be discarded for those best calculated to give larger quantities, better qualities, and at lower costs; that all possible waste be eliminated; that as many by-products as possible be reclaimed, and that use be made of low-grade and off-grade materials. It is perhaps of even greater importance to ascertain the nature of pests and other agencies which now operate to destroy our raw materials at their source, and to discover effective means for their eradication.

The discovery of all these things can best be brought about through the painstaking efforts of the expert in scientific research. Such work may require years of study, investigation and experiment. In many, perhaps most, cases it will call for laboratory and other expensive equipment. In the past Canadians have not fully appreciated the importance of such work, and as a consequence have not been prepared to provide the necessary public funds to carry it on. As a people we have been so busy attending to our own particular problems, and demanding immediate solutions of them, that we have been impatient of ideas based on long and expensive scientific research. As a result, Canada today lags behind other nations in this respect, nations which have not nearly the wealth of natural resources calling for development which Canada possesses.

It is, therefore, highly gratifying to learn of the action of the House of Commons in unanimously adopting a resolution favoring the establishment of a National Research Institute by the Dominion Government, and of announcement by the Government of its intention to proceed with the erection of the first wing of a National Research Institute building on a ten acre plot at the central experimental farm at Ottawa.

Last year, it is stated, Canada spent \$250,000 for research as compared with \$50,000,000 by the United States, and \$25,000,000 by Great Britain. This year the Government will, on the recommendation of the Research Council, increase the vote for research work to \$750,000, and the Minister estimated that three million dollars would be required during the next five or ten years to construct and develop laboratories.

In this way the splendid work initiated by many of our Canadian universities, assisted by private capital, will be supplemented, and the whole work of research in Canada co-ordinated and developed. When it is realized that Canada is estimated to be losing at least twenty million dollars a year through grain rust alone, the possibilities of gigantic gain through research work can be grasped. A few millions a year spent in research work may easily mean a gain of ten times as many millions through discoveries made.

How She Saved

A poor blind woman in Ireland put ten shillings into a plate at a mission, at a meeting. "You cannot afford so much," said one. "Yes, I can," she answered. On being pressed to explain, she said, "I am blind, and I asked my neighbor how much money he spent for oil in his lamp in a year. He replied, 'Ten Shillings.' So I found that I have saved so much because I am blind, and do not need a lamp and I give it to shed light to heathen lands."

A Courteous Hint

Michael Arlen is the hero of the following story. Some time ago he was invited to spend four days at a beautiful old-world castle in the south of England. Mr. Arlen was so charmed with the place that he remained for a week. One morning the butler presented himself with, "Your compliments, sir, and would you like a book?" The novelist promptly replied that he would. The book arrived with almost equal promptitude. It was a railway time table!

Excess acid is the common cause of indigestion. It results in pain and sourness about two hours after eating. The quick corrective is an alkali which neutralizes acid. The best corrective is Phillips' Milk of Magnesia. It has remained standard with physicians in the 50 years since its invention. One spoonful of Phillips' Milk of Magnesia neutralizes instantly many

Acid Stomach

times its volume in acid. It is harmless and tasteless and its action is quick. You will never rely on crude methods, never continue to suffer when you learn how quickly, how pleasantly this premier method acts. Please let it show you—now. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Discuss Coal Subsidy

Subsidy To Railways For Transporting Alberta Coal Should Come From Dominion Government

Any subsidy to the railways for transporting Alberta coal to Ontario should come from the Dominion Government and not from Ontario, said Premier G. H. Ferguson in the Ontario legislature, in reply to a question of J. G. Lethbridge, Progressive leader.

Mr. Lethbridge asked what the attitude of the government was in view of recent suggestions made in the press. Mr. Ferguson pointed out that the railways wanted \$9 a ton whereas the actual cost as determined by the railway board was \$7. The real cost, he thought, was nearer \$0.75. There was a suggestion, said the premier, that if the Dominion Government would contribute a subsidy of \$1 a ton, the province of Ontario and Quebec should join in providing another dollar.

HOW DELICATE GIRLS ARE MADE STRONG

Rich, Red Blood Needed To Keep Up Their Vitality

It should be borne in mind that the bloodless girls need plenty of nourishment, plenty of sleep and regular out-of-doors exercise. But a lack of appetite and the feeling of limbs tend to hinder progress. To save the weak, thin-blooded sufferer, she must have new, rich blood, and nothing meets a case of this kind so well as Dr. Williams' Pink Pills. These pills not only enrich and increase the blood supply, they help the appetite and aid digestion, relieve the weary back and limbs, thus bringing new health and strength and transforming anemic girls and women into cheerful, happy people.

The value of Dr. Williams' Pink Pills in the case of anemic girls is proved by the case of Miss Lucy Stoddart, Margartville, N. S. who says: "From the age of 12 to 15, I was in an anemic condition. I was very thin and nervous, had no appetite and had no desire to take part in the doings of those of my age. My mother got quite after me for being so, but they did me very little good. Then Dr. Williams' Pink Pills were recommended and almost from the time they seemed to be just what was needed to restore my strength. After taking the pills for a few days I felt altogether different girl. I got up in the morning feeling bright and active, and ready for work or play. Since then I have always taken a couple of boxes of Dr. Williams' Pink Pills in the spring and summer and have thus kept in the best of condition." Every weak girl should promptly follow the example of Miss Stoddart, feeling sure that the pills will renew her health. You can get the pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Recipes For This Week

(By Betty Barclay)

LAMB MENAGERIE (Thrifty Housewife's Lamb Ramekins)

- 1/2 cup sweetened condensed milk.
- 2 cups cold lamb, minced.
- teaspoon salt (scant).
- 1/4 teaspoon white pepper.
- 2 tablespoons chopped green peppers.
- 1 tablespoon chopped onions.
- 2 tablespoons hot water.
- 2 tablespoons bread crumbs.
- 1 tablespoon butter.
- Mix sweetened condensed milk with water and stir into minced lamb. Add salt, pepper, chopped onion and green peppers. Put into buttered ramekins. Melt butter; mix with bread crumbs and sprinkle over meat. Bake in a moderate oven (360 degrees Fahrenheit) for about 30 minutes, or until well browned.

CUSTARD SOUFFLE

- 3 tablespoons butter.
- 1/4 cup flour.
- 1 cup sugar.
- 1 cup scalded milk.
- 4 eggs.
- 1/2 teaspoon salt.
- Melt butter, add flour, and gradually hot milk. Bring to boiling point and pour on to yolks of eggs beaten until thick and lemon-colored, mixed with sugar and salt. Cool. Fold in whites of eggs beaten stiff. Turn into buttered dish, and bake from 30 to 35 minutes in slow oven. Take from oven and serve at once. Serve with hard sauce, whipped or plain cream.

Minard's Liniment for sick animals.

DEMAND

ASPIRIN

The whole world knows Aspirin as an effective antidote for pain. But it's just as important to know that there is only one genuine Aspirin. The name Bayer is on every tablet, and on the box. If the name Bayer appears, it's genuine; and if it doesn't, it is not! Headaches are dispelled by Aspirin. So are colds, and the pain that goes with them; even neuritis, neuritis, and rheumatism promptly relieved. Get Aspirin—at any drugstore—with proven directions.

Physicians prescribe Aspirin;
it does NOT affect the heart

Aspirin is the trade name registered in Canada indicating Bayer Manufacture. While it is well known that Aspirin means Bayer Manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trademark.

Flying Comes Here To Stay And Conquest Of The Air Goes On Apace In Canada

Canadian fliers who may be anxious to attempt a transatlantic flight this summer will have much difficulty in securing permission from the Federal government, because transoceanic hops are frowned upon in the Dominion on account of the aerial tragedies of 1927.

Legislation will be passed at the present session whereby licensees will have to be secured by pilots desiring to fly across the Atlantic. It will be extremely difficult to secure such a license.

Flying in the Dominion last year was more costly in dollars and in human life than ever before, no fewer than eleven pilots having been killed in flying accidents and yet no records were attempted or set by Canadians.

Flying has come to Canada to stay. It was born of the war when Col. William Avery Bishop, V.C., won every decoration possible for conspicuous gallantry and devotion to duty in shooting down seventy-two enemy planes.

In these days of peace the conquest of the air goes on apace in the Dominion. The young men who reaped the whirlwind in the war returned to Canada to earn their living as civilians. But the spirit of war work survived, and in a small but seasoned organization called the Royal Canadian Air Force the traditions of aerial navigation were carried on.

The young airmen, trained in war days, looked to the civil department of government for employment. They were needed and within two or three years of the close of the war many of them were in the Royal Canadian Air Force, detecting forest fires, locating smugglers on the boundaries, and mapping out by photography the vast area of the hinterlands.

Canada was quick to establish the necessary code of law for navigation of the air, and today the Dominion is safeguarded by a set of strict regulations governing the licensing of all mechanics, pilots, air harbors, international flying signals and the inspection of aircraft.

The most conspicuous work done during the recent crowded years of flying history has been the survey work in which Canada has led the world. Last year more than 400,000 square miles of Canadian territory were photographed and mapped with an accuracy which would have required years and millions of dollars if done in the old way.

Parliament acknowledged Canada's future in the air was assured by providing \$3,000,000 last year for air development. Cities are being encouraged to provide future air harbors, technical advisers from Great Britain have visited the Dominion to make recommendations for the future linking of the Empire by airways, and the postoffice department is taking the initial steps toward what will be an Atlantic-to-Pacific air route.

"No, you are mistaken. It is my stomach. I have indigestion."—Friedrich Schlegel, Munich.

W. N. U. 1721

Fisheries Of Alberta

Smaller Catch Is Reported For 1927 Over Previous Year

The fisheries of Alberta were not so active last year as in 1926, when a catch of 7 1/2 million pounds netted the fishermen \$749,000, an increase over 1925 of \$280,000. Estimates of the total 1927 catch are placed at about six million pounds, with prices running about the level of 1926. The Alberta fishing activity depends largely on the production of the Manitoba lakes. The chief markets for the fish are New York and Chicago, and the Manitoba fishing companies all these needs. If the Manitoba catch falls off, greater activity is necessary in Alberta, but if the Manitoba fisheries are active, Alberta is left with a smaller demand to fill. During the past year a whitefish hatchery was built on Lesser Slave Lake, which, with Lake Athabasca, are the chief sources of supply.

Winnipeg Newspaper Union

Paris-Inspired

One is immediately intrigued by its exquisite femininity. This stunning Parisian model No. 1702, fashioned of Creme de Menthe chiffon, derived distinction from its detail in cut. The bodice fits sleekly over the hips, adding a loose flat bolero at back to vary its smartness, and silver metal shoulder straps extend around the deep open neckline at the back. The skirt is made in three tiers with the salvage used for the edge of each tier, and loose hanging circular panels with pleated edges furnish the new side fullness to flutter to dance tulle. No. 1702 is in sizes 16 years, 36, 38, 40 and 42 inches bust. Size 36 requires 8 1/2 yards of 36-inch or 5 1/2 yards 40-inch material, and 1/2 yard 1 1/2-inch lace banding. Price 25 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dressmaker. Price of the book 10 cents the copy.

Co-Operation Between Railways

Two Transcontinental Systems Will Stand Together In Promoting Welfare Of Dominion

Whole-hearted co-operation between the Canadian Pacific Railway and the Canadian National Railway is assumed in everything that will make the greatness of Canada. E. W. Beatty, president of the C.P.R., and Sir Henry Thornton, president of the C.N.R., declared at Engineer's Club, Montreal.

The occasion was a presentation dinner to the staffs of both roads, who contributed to the success of the second (triennial) Empire Mining and Metallurgical congress, held last year in Canada.

"Something has been said of the co-operation between the two railways during the Mining congress," said Mr. Beatty, "and it has been talked of as though it was something to marvel about. It is not. In anything that is of common interest to the country and the railways you will, I think, be able to find the Canadian National and the Canadian Pacific Railways joining in support of that effort, whatever it may be."

On the question of co-operation, Sir Henry Thornton had the following to say: "Let me say that we in Canada are too few in numbers to quarrel, and too poor in capital to fight each other. The progress of our country will be best assured by the co-operation of all institutions within our bounds and by the joining of each section of our country in promoting the welfare of the Dominion. We shall stand shoulder to shoulder with the Canadian Pacific Railway in the protection that is necessary to preserve the revenues of our great transportation systems."

If Australia could be transplanted into the Atlantic Ocean, it would fill up all the space between the United States and Great Britain.

Canadian Sheep Breeders View The Future With The Utmost Confidence

Benefit Of Inoculation

Effect Of Inoculation Shown On the Yield Of Legume Crops

At several of the Experimental Farms in Canada tests have been made on the effect of inoculation on legume crop yield where legume bacteria were absent from the soil or present in insufficient numbers, and the results are summed up in a pamphlet on "Legume Inoculation" written by the Dominion Agricultural Bacteriologist. In some cases the increases in yield resulting from inoculation were comparatively slight, but in many instances they were strikingly large. At the Kapuskasing Experimental Station two years after seeding, the inoculated alfalfa seed produced 3 tons, 1,465 pounds of dry matter against 3 tons 967 pounds produced from untreated seed. Results at the Beaveridge, Alberta, Station were much more striking. On areas clipped in the year of seeding on that station the aggregate crop of two years from inoculated red clover seed was 4,192 pounds per acre as compared with only 120 pounds from uninoculated seed. For alfalfa the comparison was 4,268 pounds with 640 pounds and for sweet clover 5,660 pounds with 1,520 pounds per acre. The pamphlet may be obtained from the Publications Branch, Department of Agriculture, Ottawa.

Lady (interviewing prospective help): I may tell you that we are vegetarians.

Girl (anxious to be engaged): I've attended that church all my life, mum.

Ten Thousand Snowshoers Meet

1—Snowshoers in full costume. 2—A little diversion—the bonzo. 3—Noble Dame Church at Montreal.

Around ten thousand snowshoers and their friends visited Montreal on the occasion of the 20th anniversary of the founding of the Canadian Snowshoers' Association, which was held in that city February 3-6. The convention takes on an international character by the fact that the American Snowshoers' Association, with over 1,500 members in the state of New Hampshire and Massachusetts, also attended the convention. In addition there were representatives from the Manitoba Snowshoers' Association and a large attendance from the St. Heart Canadian Club, which was celebrating at the same time its fifth anniversary, while unattached snowshoers from all parts of Canada and the United States went to Montreal for the function.

The convention was held under the auspices of the United Snowshoers' Club of Montreal and was featured by a carnival, during which the grand snowshoe championship of the world was decided. His Worship Mayor Martin was the patron of the convention, and in its celebration a banquet was given at the City Hall, at which the snowshoers were the guests of the city, on Sunday evening, February 5.

A number of snowshoers travelled distances up to 300 miles on foot to Montreal, but the majority took advantage of the special facilities offered in excursions at reduced rates by the Canadian Pacific Railway.

The following officers were elected: President, Victor Sylvester, Ste. Hyacinthe, Quebec; vice-president, John Wilson, Newfane, Alberta; secretary, Treasurer, R. W. Wade.

It was decided to hold the next meeting in Quebec.

Red Tape In France

A girl living in Epinal, France, has been refused a marriage license because she has never been officially born. She applied for a birth certificate, which is required before a marriage license can be issued, and the office refused to register her, but could find no trace of her birth having been entered. Her parents had apparently neglected to register her birth. She was informed that officially she was not born, and the wedding has had to be postponed.

"My Old Kentucky Home" was composed by Stephen C. Foster.

WORLD HAPPENINGS BRIEFLY TOLD

The visit of Their Excellencies Viscount and Lady Willington to the Pacific coast will take place late in April.

Repairs destined to prop up the famous Leaning Tower of Pisa will be undertaken shortly under the supervision of the Ministry of Education and Fine Arts.

Commander C. T. Beard, R.C.N., will command the Champlain, and Lieut.-Commander R. J. Agnew, R.C.N., the Vancouver, the two new Canadian cruisers.

The population of British Columbia in 1920 was estimated at 568,000, according to the annual report of vital statistics for that year, tabled in the Legislature.

The Moscow municipal council and other authorities are considering the launching of a "bicycle loan."

The proceeds would provide large masses of Soviet citizens with reasonably priced home made bicycles.

Japanese to the number of 475 were admitted to Canada during the fiscal year 1923-27. Of this number 115 were adult males, 250 adult females, and 110 children under 18. This information was given in answer to a question in the House of Commons.

Protecting B.C. Fruit Crop

Counter-Parasites Are Being Imported Into Orchard Regions

Bug will fight bug this season to protect the Okanagan fruit crop from destruction. Counter-parasites are being imported into the orchard region in a campaign to decimate the coding moth and sawfly.

The counter-parasites, according to E. R. Buckle, provincial entomologist at Vernon, will be obtained from Wenatchee, Wash., the United States government having offered to cooperate fully with the British Columbia authorities. Parasites inimical to the coding moth and sawfly have done effective work in the past, although they have to be handled with a great deal more care because of the danger of introducing secondary pests with them.

Unless the coding moth is suppressed, growers fear that it may bring about destruction as extensive as in the state of Washington, where losses due to the activity of this pest were \$5,000,000 in 1920. Eight hundred carloads of apples were classified as culls in the Yakima district for same reason.

Its Quality Sells It.—The fact that so many thousands of intelligent people continue to use Dr. Thomas' Electric Oil speaks volumes for its healing efficiency. Ever since it was first offered to the public, it has grown steadily in public favor, owing entirely to its manifold usefulness in relieving and healing such ailments as specific cuts, burns, scalds, and various inflammatory pains its record is beyond reproach.

Fashion

Fitted Hipline

The charming frock shown here has a bloused bodice with a deep V-shaped front finished with a collar that terminates in a tie with a bow and loose hanging ends. The two-piece skirt is tucked at the top to achieve a snug effect below the blousing, and the long sleeves are gathered to wrists. No. 1706 is in sizes 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42 and 44 inches bust. Size 36 requires 3 1/2 yards 36-inch or 2 1/2 yards 44-inch material, and 3/4 yard 27-inch contrasting. Price 25 cents the pattern.

The secret of distinctive dress lies in good taste rather than a lavish expenditure of money. Every woman should want to make her own clothes, and the home dressmaker will find the designs illustrated in our new Fashion Book to be practical and simple, yet maintaining the spirit of the mode of the moment. Price of the book 10 cents the copy.

WOUND BRANS

Zam-Buk soon allays the inflammation and swelling of the wound and soothes the maddening irritation. It is the only medicine for the treatment of the wound. It is the only medicine for the treatment of the wound. It is the only medicine for the treatment of the wound.

Zam-Buk

Truth About Cancer

"Neither X-rays nor radium have ever cured, or will ever prove of service, as a cure of cancer. For of both of these appliances I have had ample experience."

"It is no use experimenting upon a disease unless we first of all know something of its natural history; and yet the general consensus of opinion amongst surgeons, which they have no hesitation in circulating, is that the cause of cancer is not known. Yet they continue to treat it by methods that apply only to a local outcrop, guilty of doing for a number of years before my eyes were opened to the folly of it."

The fact remains that operative treatment for cancer has been practiced from time immemorial and by our knowledge of the disease I affirm that the knife has never cured cancer in a single instance; but, on the contrary, has only succeeded in aggravating the disease and adding to the sufferings of the poor patient; and also shortening his or her life, which latter, perhaps, might be looked upon as a godsend in the circumstances."

"Now cancer is a blood disease, and there is no galsaying this—the local manifestations are merely an outcrop of the malady, the cause being prolonged toxic condition of the blood."

Love of humanity and truth impelled the internationally celebrated British cancer surgeon, Dr. Robert Bell, M.D., F.R.C.P.S., etc., to abandon his lucrative surgical practice and, with convincing proofs of his above quoted statement, this eminent surgeon successfully opposed and refuted the deadliest known disease of treating the deadliest known disease.

Before passing at an advanced age in 1920, wishing to ameliorate the condition of cancer sufferers in Canada and the United States, Dr. Robert Bell kindly authorized the writer to use his printed words and personal letters in humanity's service and a book of valuable information concerning prevention and treatment of cancer without surgical operation, radium or X-ray torture or expense can be obtained, without charge, on application to Charles Walter, 51 Brunswick Avenue, Toronto, 4, Ontario, Canada.

MANY MOTHERS

Baby's Own Tablets Are Fine For Nervous, Sleepless Children

From Canada the fame of Baby's Own Tablets is spreading over the world. Mothers recommend them to other mothers and wherever they are tried nothing but words of praise are heard for these pleasant tasting little tablets that promptly relieve the minor ailments of young children.

Baby's Own Tablets are one of the best remedies for children's ailments I have ever used," says Mrs. Arthur T. Allen, of Auburn, Me. "My little girl was nervous and could not sleep. I tried the Tablets and she was relieved at once. She was also troubled with constipation and nothing seemed to help her. I had used the Tablets but a short time before her bowels were regular. All mothers should keep Baby's Own Tablets in the house for they are a valuable remedy."

Baby's Own Tablets are sold by all druggists or will be mailed on receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

RECOMMEND THEM

If you're not up and doing, you're down and being done.

"A Babe in the House is a Wellspring of Pleasure."

St. Catharines, Ont.—"During motherhood I was all rundown, nervous and weak, when, upon advice, I began taking Dr. Pierce's Favorite Prescription. It strengthened me, quieted my nerves and I had no more trouble. I kept well and had a fine, big, healthy baby—he has scarcely had a day's sickness. The 'Favorite Prescription' was so helpful to me that I believe it is the only medicine for the expectant mother to take."—Mrs. C. H. Wiley, St.

Go to the drug store at once and obtain this Prescription in tablets or liquid, or send 10c to Dr. Pierce's Laboratory in Bridgeport, Ont., for a trial package of tablets.

Dr. Pierce's Favorite Prescription is a most distressing characteristic of this debilitating disease is the persistence with which recurring attacks come to sup away strength and leave the sufferer in a state of almost continual exhaustion. No wise precaution can be taken than that of keeping at hand a supply of Dr. J. C. Kellogg's Asthma Remedy, famous as the most potent remedy for eradicating the disease from the tender air passages.

Dusky Patient—Yassah. Kindly hand me mah hat.

Woodsmen—Keep Minard's handy.

SUNDAY SCHOOL LESSON

OTHER MIGHTY WORKS OF JESUS

Golden Text: "Thy faith had made thee whole."—Mark 1:34.

Lesson: Mark 5:23-43.

Devotional Reading: Ephesians 3:14-21.

Explanations and Comments

I. The Triumph Of Love Over Pride, verses 22, 23.—When Jesus reached the western shore of the lake, after the events of our last lesson, Jairus, a ruler of the synagogue (perhaps of the one which had been built to him and fell at his feet in supplication. "My little daughter (an only child, Luke 8:42), is at the point of death; I pray Thee, that Thou come and lay Thy hands on her, that she may be made whole and live." The ruler was a proud Pharisee, and we have seen how bitterly hostile to Jesus the majority of the Pharisees had become by this time. No thought of what others said about Jesus deterred Jairus from seeking Him, and no thought of his own station held him back from throwing himself in an attitude of supplication at the feet of the Ruler of the World, Jesus, the Son of David, the Son of Man.

II. The Triumph Of Faith, verses 24-34.—Jesus assented to the ruler's urgent request, and was on His way with him to home, followed by a great crowd of people, when an interruption came. There was a woman in the crowd who had been ill for twelve years and had spent all her money on physicians, under whose treatment she had suffered much, but had grown worse rather than better. This recalls the ancient Jewish saying that "Even the best of doctors deserves Gehenna." This woman pushed herself forward and touched the hem of Jesus' garment, and she was made whole.

"If I touch but his garments, I shall be made whole," the woman said to herself. "Daughter, thy faith hath made thee whole; go in peace, and be whole of thy plague," were the comforting words the woman heard.

While Jesus was speaking with the woman, there came a messenger from the ruler's house, who said to the ruler, "Thy daughter is dead; why troublest thou the Teacher any further?" "Fear not, only believe," were the comforting words which Jesus addressed to the stricken father. Jesus then continued his way to the house of Jairus, but permitted no one to come with him save Peter, James and John, the three disciples who especially shared his confidence.

On reaching the ruler's house they heard the tumult which was usual at such a time, the weeping and wailing of hired mourners. "Why make ye a tumult and weeping and wailing?" Jesus said to them; "the child is not dead, but sleepeth." By these words Jesus did not deny that physical life had departed. The people in the house took the words of Jesus literally, and by their scornful laughter said that they knew she was really dead. Jesus put them all out of the room, allowing only his three disciples and the father and mother to remain. Then he took the child by the hand and said in Aramaic, Tullitha, cumi, that is, "Daughter, arise, and be whole." At the twelve-year-old maiden arose and walked.

CREAM OF TOMATO SOUP

2 1/2 cups canned or fresh cooked tomatoes.

1/4 salt onion, sliced.

1 stalk celery, minced.

1 tablespoon minced parsley.

1/2 bay leaf.

2 whole cloves.

1 teaspoon salt.

1 teaspoon pepper.

1 teaspoon sugar.

1/2 teaspoon soda.

2 tablespoons butter.

1 1/2 cups water.

10 cups Borden's St. Charles Milk.

Add seasoning to tomatoes and simmer fifteen minutes, strain.

Melt butter in saucepan, stir in flour. Dilute milk with water, pour slowly into butter and flour, stirring until it thickens. Continue to cook five minutes.

Just before serving, add soda to tomatoes, gradually add tomatoes to white sauce, stirring constantly, serve immediately.

All or any of the vegetable seasonings may be omitted, but their addition gives a rich, well-blended flavor to the soup.

Persistent Asthma. A most distressing characteristic of this debilitating disease is the persistence with which recurring attacks come to sup away strength and leave the sufferer in a state of almost continual exhaustion. No wise precaution can be taken than that of keeping at hand a supply of Dr. J. C. Kellogg's Asthma Remedy, famous as the most potent remedy for eradicating the disease from the tender air passages.

CANCER

Great Success of Cantastium Treatment

A well-known London surgeon and recognized authority on Cancer has called world-wide interest in the discovery that Cancer is due to a deficiency of potassium "salt" in the body, which causes the cells to break down and become malignant.

The Real Cause of Cancer

A remarkable book has been specially written. This book will be sent free to patients or any one who is interested in this most successful method of fighting "THE CANCER SCOURGE."

The following is a list of the chapters:

I. "The Limitations of Surgery; 2. Some Doctors Oppose Operation; 3. What Cancer Is; 4. Why the BODY LACKS BREAK DOWN; 5. Incurable Curing Methods; 6. Common Errors in Diet; 7. The Vital Elements of Food; 8. Medical Endangerments of Our Climate; 9. The Chief Elements of the Body; 10. The Thyroid Gland; 11. Age When Life Begins to Accumulate; 12. Potassium Causes Life Excretion; 13. Great Value of Potassium; 14. Parts of the Body Which Are Seldom Affected; 15. How a Doctor Can Help; 16. How to Avoid Cancer; 17. Death from Cancer; 18. Artificial Salts and Old Age; 19. Rheumatism, Gout and Kindred Complaints."

This book is a number of interesting case-reports proving the great value of "Cancer Cure Treatment" in various cases. The treatment is simple, and can be easily taken in one's own home. Apply for free book to Charles Walter, 51 Brunswick Avenue, Toronto, Ontario, Canada.

A Parisian poet, Louis Lohgr, entered a cage of wild lions and read his poems for half an hour. The lions seemed unharmed.

Frostbites.

Minard's Liniment counteracts inflammation, soothes the pain, soothes and heals.

MINARD'S "KING OF PAIN" LINIMENT

The man who has millions today doesn't control a single minute of tomorrow.

The BABY

Why do so many, many babies of today escape all the little fretful spells and infantile ailments that used to worry mothers through the day, and keep them up all the night? If you don't know the answer, you haven't discovered pure, harmless Castoria. It is sweet to the taste, and sweet in the little stomach, and its gentle influence seems felt all through the lymph system. Not even a distasteful dose of castor oil does so much good.

Fletcher's Castoria is purely vegetable, so you may give it freely, at first sign of colic, or constipation, or diarrhea. Or those many times when you just don't know what the matter. For real sickness, call the doctor, always. At other times, a few drops of Fletcher's Castoria.

The doctor often tells you to do just that; and always says Fletcher's. Other preparations may be just as pure, just as free from dangerous drugs, but why experiment? Besides, the book on care and feeding of babies that comes with Fletcher's Castoria is worth its weight in gold!

Children Cry for Fletcher's CASTORIA

Delicious Oyster Stew

Being doubly creamy, St. Charles Milk so enriches an oyster stew that it is irresistible. Try it.

ALBERTA WILL REFUSE OFFER FOR RAILWAYS

Edmonton.—That the Province of Alberta should receive the replacement value of the Edmonton, Devonian and British Columbia and Central Canada Railways was the declaration made by Premier Brownlee during his speech which dealt with the railway offers received by the Alberta Government in the Legislature. The Government's reply to the joint offer of the Canadian National and Canadian Pacific Railways would be: "We will not accept." The Government is prepared to await another joint offer from the railway companies or separate offers but in the meantime is prepared to go ahead and operate the lines, confident that the value of the Alberta railways can be demonstrated and satisfied that the replacement value eventually can be obtained.

"These Alberta railways are not on the auction block and in future we are not going to peddle them from place to place," said the Premier, "and the time is coming rapidly when our railways will be keenly desired by the great transcontinental lines."

The answer of the Government to the Canadian National's offer for the Alberta and Great Waterways Railway would be that this offer is not satisfactory.

Premier Brownlee sounded a rallying cry to the Boards of Trade, newspapers and all organizations in the province desirous of bringing about a successful solution of Alberta's railway problems to stand together and co-operate toward the desired end. He pointed to what Manitoba and Saskatchewan had done by united effort in achieving their goal in regard to the Hudson's Bay line, what British Columbia had done in regard to the P. and G.E. and what the Maritimes had been able to accomplish in Maritime rights, and asserted Alberta could bring about a satisfactory solution to the railway problem if all stood together.

Co-Operation Urged In Weed Control

Federal and Provincial Departments Should Work Together On Government Lands

Ottawa, Ont.—During the discussion of a vote in the House of Commons of \$375,000 for seed, feed and fertilizer control, G. G. Coote, U.F.A. Maceo, informed the Minister of Agriculture that in Western Canada there was quite a problem resulting from the growth of weeds on Government lands. He suggested that the minister might spend a little of the money of the appropriation in eliminating these noxious weeds on government property. The farmers themselves could not go on the Dominion lands in order to do this work.

Hon. R. H. Bennett, Opposition leader, said that Mr. Coote had raised a very important point. He urged the Department of Agriculture to endeavor to co-operate with the Provinces in such matters. The minister said that the question of overlapping the administration of such departments with provincial affairs was being eliminated. The minister told of the efforts being made to combat the weed problem. The vote then carried.

Heir To Asquith Title

London.—Earl of Oxford and Asquith's heir is 11-year-old Julian, Viscount Asquith, son of the former prime minister's eldest son, Raymond Asquith, who was killed in action while serving with the Grenadier Guards in the Great War.

Inquires About Russian Bank

Ottawa.—Copies of all correspondence and other documents pertaining to the break of relations between Canada and Soviet Russia are requested in a motion placed on the order paper of the House by A. A. Heaps, Labor, Winnipeg, North.

For the purpose of developing foreign markets for Indian goods, the Indian government is sending a trade commissioner to many parts of the world.

W. N. U. 1721

Canadian Farmers In Edinburgh

Visitors From Canada Honored At A Dinner At Which Lord Elgin Was Present

Edinburgh.—Canadian farmers now touring Scotland were honored in a unique fashion at a dinner in Edinburgh at which Canadian National Railway officials were hosts, when a Scottish earl, grandson of a former Governor-General of Canada, sang a famous Scotch ditty to the immense delight of the Canadians. The earl was Lord Elgin, whose illustrious grandeur was stoned by the populace in an historic event in Montreal, and the present earl, recalling the incident, caused great amusement by declaring that among the prized members at Broomhall were two pieces of granite which had been thrown at the Governor-General.

At the conclusion of the earl's speech, and song, the Canadians gave him three rousing cheers. The dinner was the occasion for gathering together some of the most brilliant of Scottish agriculturists, W. A. Wilson, agricultural representative for Canada in Britain, was chairman, and besides Lord Elgin there were present, Sir Robert Craig, president of the Scottish Board of Agriculture, and known as "the friend of Canada"; Dr. Crew, director of animal breeding, research department, Edinburgh University; Archibald Macenlague, secretary of the Clydesdale Horse Society; John Stirling, secretary of the Highland Society; C. Weatherall, secretary Scottish Board of Agriculture; Professor Robert Wallace, head of the Faculty of Agriculture, Edinburgh University; Robert Park, owner of the famous Clyde horse, "Brumstone Agin"; John Geddie, Edinburgh historian; Dr. Savage, formerly of Winnipeg.

At the conclusion of the dinner, the Canadian farmers were presented with a letter from the Earl of Elgin, in which he expressed his pleasure in having them in Scotland, and his confidence in the future of the Canadian agricultural industry.

Passing Of a Great Statesman

Great Britain Mourns the Death of Earl of Oxford

Sutton Courtenay, Eng.—While known to many as the premier of Great Britain, the Earl of Oxford's life of service and mourned his death, the body of the aged statesman, who died at his home here, was carried to the parish church of Sutton Courtenay.

Praise of the Earl of Oxford and Asquith as a great parliamentarian, a forceful, gracious debater and an unselfish servant of the nation's welfare is contained in thousands of messages of condolence published and received by his widow. All recall his activities in the early days of the war, when as Prime Minister, he breathed the British spirit of confident courage.

Many proudly remember his declaration in the face of Germany's seemingly irresistible advance when he said:

"We shall never sheath the sword which we have not lightly drawn until Belgium recovers in full measure all and more than all she has sacrificed; until France is adequately secured against the menace of aggression; until the rights of the smaller nations of Europe are placed upon an unassailable foundation, and until the military domination of Prussia is wholly and finally destroyed."

Range Horses Stolen

Believed That Gang Of Rustlers Have Been Operating In Alberta

Lethbridge, Alta.—Scores of range horses along the international border are missing and it is believed an organized gang of rustlers has rounded them up and made away with them. Farmers anxious to get in their horses so they may be put on feed in preparation for spring work found the animals missing and the authorities investigating the losses are of the belief that the rustlers have driven the animals to the Blackfoot Indian Reserve, altered the brands and shipped the stock to Butte, Montana.

Woman Pastors Favored

Ottawa.—Approval of the general principle governing the ordination of women into the ministry was given by the Ottawa Presbytery of the United Church of Canada in session here. The Presbytery, however, decided that at the present time it was not expedient to introduce the matter for adoption by the general council.

Would Encourage Folk Songs

Miss Juliette Gaudier, descendant of a famous courtesan of Paris, says her Indian blood has made her sacrifice a successful career in grand opera for the mission of making Canada's native folk songs famous. She is a master of many Indian dialects and can sing in the Eskimo tongue.

English Appointment For Woman Barrister

Saskatchewan Graduate Made President Of Leeds Outlook Club

Regina.—Miss E. Hall, woman barrister, who graduated from the University of Saskatchewan as a Bachelor of Laws and was admitted to the Canadian Bar, is now at Leeds, England, and has been appointed secretary of the Outlook Club there. Miss Hall, a native of London, England, came to Canada in 1914 and after teaching school in this province for some time, took up law. Until she recently left for Leeds she practised law for three years in California. A report of her appointment by the Outlook Club appeared in the Yorkshire Weekly Post, January 21.

Seeking Altitude Record

British Plane Would Have To Ascend Eight Miles

London.—The Air Ministry soon will make an attempt to gain for Britain the air altitude record. A secret plane which was built for the attempt has been removed from Bristol, where the effort originally was to be made, to South Farnborough.

Air Service pilots will be at the controls. It is understood that an exceptionally small Bristol biplane will be used. To beat the present record it will be necessary for the plane to ascend about eight miles.

Moose Plentiful in Ontario

It is not an easy thing to shoot a moose but there are plenty of them in the Big Pogramat district of Ontario which can be reached comfortably over the lines of the Canadian Pacific Railway. Bob Becker, the sporting editor of the Chicago Tribune, visited this district during the present winter and he was successful in accounting for a magnificent specimen of a bull moose.

"How these big boys are travelled at that rate in the flying pan and all was set for a celebration banquet in camp that night.

Suggests New Scheme To Secure Settlers

Sir Henry Thornton Advocated Higher Freight Rates To Obtain Funds

Toronto, Ont.—The raising of \$20,000,000 annually by increased freight rates on the part of both the Canadian National Railway and the Canadian Pacific Railway, to be administered solely in the prosecution of a vigorous immigration policy was a scheme which Sir Henry Thornton, chairman of the Canadian National Railways, outlined during a speech at a dinner of St. Andrew's Masonic Lodge here. Sir Henry stated that if freight rates were increased on an average of five per cent. it would yield to both the C.N.R. and the C.P.R. an additional \$20,000,000 each year. "If both railways joined hands in raising that fund for the encouragement of immigration," he declared, "we would make infinitely more progress in the future than in the past."

The speaker stated that there were 300,000 experienced farmers who would come to Canada, if they had partly prepared farms waiting them.

"We can bring those 300,000 experienced farmers here and other hundreds of thousands of boys and men from the motherland," he declared. "That represents the kind of thing on which we ought to spend our money."

Brings Canada Big Revenue

Dominion Exporting Annually Rubber Products Valued At Thirty Millions

Montreal.—Today Canada had become the fourth rubber exporting country of the world and was now exporting rubber products to the value of \$30,000,000 annually, though the raw product came from countries to which the Dominion was exporting the manufactured commodity, declared Hon. James Macdonald, minister of trade and commerce, in an address at the annual banquet of the Canadian Rubber Association here.

"The development of the rubber industry in Canada," the speaker stated, "is probably the best available illustration of the fact that where there is a need in a country for a commodity and therefore an extensive potential market, there the manufacture of that product will develop though it is necessary to transport the raw materials from the four corners of the globe."

Massey-Harris Buys U.S. Plant

Racine, Wis.—The J. I. Case Plow Works, one of Racine's pioneer industries and which since its inception in 1876 has developed into a million-dollar concern, was sold to the Massey-Harris Company, Ltd., Toronto, it was announced at the Case Company office. No announcement of the consideration was given.

URGE PLAN TO CONVERT COAL INTO CRUDE OIL

Ottawa.—The House of Commons called upon the Government to consider the conversion of Canadian lignite and bituminous coal into crude oil. A motion of T. E. Kaiser (Conservative, Ontario), advocating steps with this in view was approved after brief debate.

Dr. Kaiser in presenting the motion urged the Government to have coal from Canada sent to Birmingham, England, and there tested as to its adaptability to the processes being used to convert coal into oil. He also wanted young Canadians to be sent abroad to study the latest developments in this work.

Speaking of scientific effort, Dr. Kaiser suggested that at the Gateway of the Prairies (Winnipeg), a monument should be erected to Dr. Saunders for his work in wheat to show the world that there were victories of peace greater than conquests of war.

He believed Canada was on the verge of a solution for the fuel problem by the conversion of lignite and bituminous coal.

A. W. Nell (Independent, Comox-Alberni), said many things could be done in chemistry but not always economically. He criticized the "character of character of the resolution," as it would involve the Government in very dangerous expenditures.

Hon. Charles Stewart, Minister of the Interior, declared he had the privilege of making an investigation and study of the whole subject matter of the resolution while in Europe last summer. On one plant alone over 12,000 chemists were busily engaged at the time of his visit. There were great possibilities in at least three or four experiments now under way in Europe. It was his desire, said Mr. Stewart, to learn what actually could be done in the way of experiments and what could be done in a commercial way.

He would be pleased to have an appropriation provided in the estimates which would be used for the purpose of sending students abroad to make a scientific study of the treatment of coal.

"I want to see every avenue of research explored," commented Mr. Stewart, "but believe we should exercise some care that we do not have any overlapping."

Soldier Settlers' Lands

Re-Valuation Results In Many Reductions Being Granted

Ottawa.—Seven thousand eight hundred and eighty-six soldier settlers have been granted reductions of their lands under the act passed at the last session of Parliament, it was shown in a return tabled in the House of Commons. Of these applications only 18 have been dealt with. These were in Saskatchewan and a reduction of twenty-two and a half per cent. was granted.

The annual report of the soldier land settlement board also tabled shows that since the inception of the scheme \$109,000,000 has been loaned to soldier settlers. The outstanding indebtedness of the settlers is \$78,000,000. The sum of \$18,000,000 has been repaid plus \$4,000,000 interest. One thousand and fifty soldier settlers have discharged their debts. Last year during the collection period ended June, 85.4 of the amount due was collected and the board reports that collections have shown a notable improvement.

Will Represent Canada

Lieut.-Col. Vanier On Advisory Committee Of League

Geneva.—The League of Nations has been officially informed by the Ottawa Government that, Lieut.-Col. G. P. Vanier will represent Canada on the permanent advisory committee of the League of Nations for military, naval, and air questions.

As a member of the council, Canada has the right to this representation, a committee which will play a prominent role in the forthcoming disarmament negotiations here.

65,000,000 Bushels of Grain Move West

1. A Canadian Pacific freight boat being loaded with grain. 2. Bound for far countries carrying some of Canada's golden crop. 3. Part of a grain train passing through the mountainous regions of the west. 4. A huge double-headed

Over 65,000,000 bushels of grain will be carried into the port of Vancouver for the twelve months ending March 31 next according to estimated figures issued from the offices of E. D. Cottrell, Winnipeg, Man., superintendent of transportation for the western lines of the Canadian Pacific Railway.

These figures will establish a record. In fact they show enormous strides since 1922—the first year that the Canadian Pacific Railway handled any quantity of grain to the western coast.

Up to and including January 21 of the present year, a total of 32,535,573 bushels have been shipped by boat from the port of Vancouver. Of this amount 23,756,000 bushels have been routed to

the United Kingdom; 9,732,045 bushels to the Orient and 344,557 bushels to other countries.

It is interesting to note that up to January 21, the Canadian Pacific railway loaded on western lines this season 125,451 cars of grain of all kinds. If placed end to end this vast collection of cars would stretch approximately 1,170 miles and a train, travelling at the fast rate of 60 miles an hour, would take nearly twenty hours to pass them.

Very few people know that the very extensive and expensive facilities provided by the Canadian Pacific railway to handle the annual grain crop on western lines remain idle, comparatively speaking, for about two thirds of the year, and the money invested in these facilities and extra rolling stock earn no returns during the period mentioned.

The building of the Transcona yards at Winnipeg, with over 100 miles of track and a capacity of 12,000 cars, one of the most up to date yards on the continent, was necessary to handle the Canadian Pacific's grain traffic, and is therefore used for handling revenue traffic only about two thirds of the year.

During the time the cars and locomotives are lying idle they are inspected thoroughly by the mechanical department and put into first class shape, so that when the rush commences they are ready for immediate use. This year seventy of the company's largest engines were transferred west for the grain haulage.

The Fall of Trotsky

Faces the Cruel Punishment Of the
Old Autocratic Government
There are many ironies in the exile
of Trotsky to Siberia.

There is the irony that he who next
only to Lenin, was the main creator
of the Soviet regime, is now crushed
and rejected by it.

There is the irony that he follows
the way of the helpless Czar whom
he sent to his death at Ekaterinburg.
There is the irony that, in facing
Siberian exile, he faces the cruel punishment
of the old autocratic government
which every Russian liberal for
a century has vowed to end.

And there is the final irony that
the world at large will take from
the exile of Trotsky all sorts of valuable
lessons of the exact kind which
neither he nor the Soviet tyrants
will want it to take. — New
York Post.

PAINTED FIRES

BY NELLIE L. McCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER XIX.—Continued.
His house of branches was replaced by a little log shanty, with a home-made fireplace built of stones from the river, and into it he moved before winter. In the spring he returned to civilization with his season's catch of fur, and when his victory was assured, and if he had been more sociable and friendly he would have received the admiration of the settlement at Bannerman. As it was he hid his trading almost silently, volunteering no explanation of his strange ways; and no man can gain the confidence of his fellow men unless he is willing to explain himself.

The year before the war, the Englishman had built a shingled bungalow, with glassed-in verandah, and hardwood floors. He had built-in cupboards and furnished it in such a manner that many a man living in the settlement was subject to drastic questioning by the wife of his bosom, who drew pointed comparisons between the house she was forced to live in and this one. Why was it that a crazy Englishman who lived alone but for his dogs, could afford such luxuries as these, while whole families were still living in congested quarters? Matters grew still more unpleasant when it was rumored that he was going to pipe the water from a lake in the mountains to his house.

The only explanation the harassed husbands could think of, and it did not entirely satisfy, was that the man must be receiving money from home. No man could do all this on his fur catches.

It was Bill Larsen, the Swede, who conceived the idea of visiting this new house, and to this end organized

a fishing party one Sunday morning in the spring of the year. English River abounded in mountain trout, and it was easy to get a party together to go out. They could ask permission to hold a kettle and in that way get in to see the house.

The party came back late that night registering complete success. He had not only asked them to come in, but had cooked a meal for them—roast chicken, canned figs for dessert, white cloth and everything.

"Did he ask you all to come again when you couldn't stay so long, or anything like that?" asked Jim Simpson, incredulously. Jim had opposed the fishing party.

"He doesn't need to ask us back when he fed us that well. We'll go all right—eh, boys?" replied Bill, "vittles like that speak for themselves—we're going next Sunday again. Gosh, Jim, you better come—he's tickled to see us, I believe. He's not quite all there—anyone can see that, he's so polite and ladylike—and we might as well punch a meal ticket on him as not."

The parties continued for several weeks, growing in number, and never did the hospitality fail. Fried lake trout, home-made bread and butter, eggs, and wild fruit were plentifully supplied and eagerly consumed.

"Geel that fellow is easy," Bill Larsen was often heard to say; "he seems pleased to do it, and never seems to mind that none of us offer to help him clean up or anything. Well, some people like work, and I'm not the one to try to deny their work. He don't even know when we're laughing at him!"

The next Sunday their host was as generous as ever, but when the meal was half over, apologized for his haste in clearing the table. Usually he waited until his guests were gone, but today he was going out and if they would be so kind as to excuse him he would proceed to wash up while they were eating their dessert, which on this day was wild strawberry pie. The visitors winked at each other behind his back. Think of any human being asking leave to wash his own dishes! "Oh, sure they would excuse him providing he didn't rattle the dishes too much and disturb the speakers." This was from the barber, who was the humorist of the party.

Even at that their host politely replied that he would be most careful. He then gathered up the plates and laid them in a row on the sun porch, his visitors watching him with interest. They were in radiant mood. This fellow grew funnier all the time. What funny work he was up to now!

The Englishman opened the verandah door and called. Four collie dogs came bounding in. He motioned to them to begin operations on the plates, which they did with eagerness. When they had made a thorough job of cleaning them he gathered up the plates deliberately and arranged them in one of his many cupboards.

"They save me a lot of work," he said, more to himself than to his guests, on whom a silence had fallen; "and they polish the plates very well indeed, and the pots and pans as well."

There was an understanding on the way home that no reason would be

given for discontinuing the visits. "Now, boys, said the barber, 'that's what might be called tact. He didn't tell us we had worn out our welcome—just intimated it. I think wish he had waited until we had finished that pie! Wild strawberry pie! I never thought anything could turn me from wild strawberry pie. That fellow is not such a fool, after all.'"

"Well, I am going," said the Englishman to Jim Simpson. "I am going today. My only regret is that I did not know sooner. Will you buy my horses—the whole outfit as it stands?"

"What did you do with your fine house and all that furniture?" asked Mr. Simpson, cautiously.

"Left it—left it—locked the door and came out. Gave one dog away—shot the others. I couldn't shoot old Cleo, I tried but I couldn't."

"Good Lord, man, you're crazy! Them were dandy dogs? What in thunder did you want to shoot them for—I thought you were a real dog man."

"No one will ever abuse my dogs. I wanted to be sure, that's why. I gave the Ransom's a horse, and they promised to care for Cleo as long as she lives. What will you give me for the horses? Be quick now!" He had no time to argue—he was going on the train that day.

"One hundred dollars for the whole thing," said one of the men.

"Very well," said the Englishman, "I'll take it. Be good to them."

He went to the boarding house for dinner, where he was the centre of curious eyes, for the story of his wild intention was known. When he had eaten a large meal he stood up suddenly and broke into speech.

"Boys, you are wrong," he began, in going on mining coal and thinking you do not need to hear the call your country has sent out. The British Empire is threatened, her enemies are at the gates. Belgium, a little country, has been violated. While you sit here, villages are burning, women are screaming—and the Germans are marching triumphantly on. Have you no pride, no manhood? . . . I know the Germans are . . . they have been getting ready for years. Lord Roberts told the Empire to get ready—it was coming—but they went on like you—business as usual!"

He paused here, overcome with emotion. One or two of the men laughed, the others regarded him stolidly. Crazy Englishman! Crazier than ever!

"Well, say, looka here," began Bill Larsen, "what are you gettin' so hot up over, I'd like to know." Bill, although the proprietor of the "Grande Pacific," a hotel licensed to sell malt and spirituous liquor, and presumably a place of refreshment for man and beast, made no pretence of supplying meals even for himself, but took the monthly rate from Mrs. McMann. "What's bittin' you? Go yourself if you want to—what's the call for absurd us because we don't want to stand up and stop bullets. My old granddad fought in the American war, and he got his fill of it, I'll say!—lost an eye and a leg, and got four dollars a month of a pension from his grateful country! I don't look like a safe proposition. How do you know who's right? Your British Empire wasn't so darned right when she had the little run-in with the United States. How do you know she's right this time?"

(To Be Continued.)

Goodwill Tours To Europe

Members Of Parties Will Take Own Cars and Motor Through Europe

A friendlier feeling between Canadian, American and European motorists which, in turn, will be transmitted to a much wider circle of people on the two continents will, it is hoped, be engendered as a result of two personally conducted "goodwill" tours to Europe this summer organized by the White Star Line under the official auspices of the Montreal Motorists' League. It is stated in an official announcement by the White Star Line. A novel feature of the tours will be that those going to Europe with these parties will take their own cars and motor through Europe and Great Britain.

Wherever they go receptions will be arranged in the principal cities and it is anticipated that the Touring Club of France, and the Automobile Association of Great Britain, with which the Montreal Motorists' League is affiliated, will tender official receptions to the parties and, in this way play their part in promoting goodwill between Europe and the North American continent.

Already there have been inquiries from Winnipeg, Vancouver, Toronto, several cities in the province of Quebec, Ontario and Manitoba, and with the announcement of these tours in the United States it is expected that there will be a regular string of requests from American motorists.

One of the principal ideas underlying these parties is to persuade Canadian and American motorists, who already have much in common, to travel across the ocean together and, by personal contact with motorists in Great Britain and in Europe, build up a firmer feeling of friendship between the people on the two continents.

The first party, with their own cars, will sail from Montreal on the White Star liner "Meganitic," on July 26, and return from Liverpool on the White Star liner "Calgaric," on August 31.

The second group will sail from Montreal on the White Star liner "Alberic" on September 6, and return from Southampton on the same steamer on October 20.

Both these parties will follow practically the same itinerary, landing at Havre and motoring thence to Rouen, through the Canadian battlefields by way of Neuve Chapelle, Amiens, Doullens, Arras, Vimy Ridge, the Somme, Lille, Tournay, Mons, Cambrai, St. Quentin, Compiègne to Paris by way of Chateau Thierry to Rheims, Verdun, Luxembourg and Treves, Cologne, Aix la Chapelle,

Brussels, Antwerp, Amsterdam, The Hague, Rotterdam, and then by steamer to Harwich from where the party will make a circular tour of England and Scotland.

Little Helps For This Week

"Forgive, if you have ought against any, that your Father also which is in heaven may forgive you—Mark xi. 25.

Gently I took that which ungently came. And without scorn forgave; do thou the same. A wrong done to thee think a cat's-eye spark. Thou wouldst not see were not thine own heart dark."
—Samuel Taylor Coleridge.

Does any man wound thee? Not only forgive, but work into thy thought intelligence of the kind of pain that thou mayst never inflict on another spirit.—Margaret Fuller.

Life appears to me too short to be spent in nursing animosity or registering wrong.—Charlotte Brontë.

Children suffering from worms soon show the symptoms, and any mother can detect the presence of these parasites by the writhings and fretting of the child. Until expelled and the system cleared of them, the child cannot regain its health. Miller's Worm Powders are prompt and efficient, not only for the eradication of worms, but also as a tonic for children that are run down in consequence.

A Texas chemist has declared the material value of the average human being to be 98 cents.

The "Flu" LEFT HER WITH A VERY WEAK HEART

Mrs. Bertha Demore, Pleasant River, N.B., writes:—"Having suffered with the 'flu' a few years ago, I was left with a very weak heart."

"I was unable to do any work, and could not do my housework. 'I would get dizzy spells and would have to go and lie down. 'I could not sleep at night as the least little noise would wake me up. 'I tried different kinds of medicine, but they seemed to do me no good. 'A friend recommended

I have used five boxes and am much better; do not get those dizzy spells, and can do my own work as well as ever."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

OPERATION LEFT HER VERY WEAK

Letter Tells of Wonderful Relief After Taking Lydia E. Pinkham's Vegetable Compound

Coniston, Ontario.—"After a severe operation and a three weeks' stay in a hospital I returned home so weak that I was unable to move a chair. For four months I was almost frantic with pains and suffering until I thought sure there could not be any help for me. I had very severe pains in my left side and suffered agony every day when I was not able to get up my mother begged me to try your medicine. My husband gave me a bottle of Vegetable Compound at once and I took it. I started a second bottle, and to my surprise and joy the pains in my side left me completely and I am able to do all my work without help. I am a farmer's wife so you see I can't be idle long. In all, I have taken six bottles of Lydia E. Pinkham's Vegetable Compound, five bottles of the Compound Tablets, two bottles of Lydia E. Pinkham's Blood Medicine, and have also used the Sanative Wash."—Mrs. L. LAJEUNESSE, Box 100, Coniston, Ontario.

Stony Plain and District.

Dave Roberts is negotiating for the lease of a gas-filling station in Edmonton, from the Imperial Oil Co.

The recently organized juvenile branch of the town band is threatened with dissolution, owing to a complaint from parents that the bi-weekly practices in Schmidt's hall interfere with the home studies of the bandmen.

Auctioneer Zucht held another successful sale yesterday, this time for Mrs. Karl Goerz Sr. Everything on the bill was offered, and brought satisfactory prices. Mike holds another sale tomorrow, for John R. Schlitt, of Rosenthal district.

At the nomination meeting held Saturday to fill the vacancies on Inga Council, Fred Kreye was nominated in div. 2; R. C. Howat in div. 5; and Geo. Aiken and J. Bennett in div. 3.

M. M. Mecklenburg, the well-known optical specialist, will be at the Royal Hotel, Stony Plain, on Friday, March 9th. See him and see well.

Hockey Notes.

Winterburn hockeyists visited Stony Sunday afternoon and played our Junior team. Stony's team was none too strong, as several of its members were "keeping dates" in the City just then, but the remainder did their best, with the result that the game turned out to be one of the best seen here this season; the final score being: Winterburn 1; Stony 0. This is the only game the Juniors have lost this season.

The Senior hockey team is taking a trip up to Duffield on Sunday next.

Dance Notes

There will be a dance tomorrow (Friday) evening at Rose Hill school house, south of Duffield. Tirrells will furnish the music.

Manly Community Club gave a social evening and dance on Saturday at Fraternity Hall, at which a large number of the district's residents were in attendance and had an enjoyable time.

The Swedish Orchestra, from Edmonton, delighted the dancers at the affair held in Aalborn Hall, Tuesday evening. They are expected to play a return engagement in the same hall in the near future.

A dance is billed for Stony Plain tomorrow evening, the 25th, given by the Edelweiss Club.

A Leap Year dance will be held in Telfordville Hall on Tuesday next, the 29th.

Spruce Grove News

A school boy named Emil Heuener with a touch of the wanderlust left his home in Edmonton on Saturday last. A phone message here Sunday afternoon intimated that he was on the trail headed west, and people were advised to be on the lookout for the stray. Later it was discovered that he had been in the Grove about 5.30 p.m., looking for a meal.

The sale of home cooking, in the church building, on the afternoon of Saturday last, the 18th, held by the Ladies Aid of United Church was a very successful affair.

Meeting of Red Cross Society

The annual meeting of the Red Cross Society will be held in the Palliser hotel, in Calgary, on Saturday next, Feb. 25. The public are cordially invited to attend, and it is earnestly hoped there will be a large gathering of Red Cross friends and workers from various parts of the province.

Muir Lake News.

The hall at Muir Lake was crowded to the doors Friday evening last, Feb. 17, when the members of Muir Lake Community Club produced their playlet "Poor Father." Considerable work had been done in preparing the play, and the success the players achieved easily repaid them for the effort made. Each player seemed to fit the part assigned him (or her) in an excellent manner, with a total result that the whole was a brilliant success. Those who took part were: The Misses Effie Gamble, Mary Gamble, Valtraut Schmidt, Mary Cardemann; Messrs Geo. Wolfe, Wm., George, Zinnia and Tofel Gamble, Alec Zeiler, John Webber, John Miller.

There is a probability that the playlet will be shown in Stony in the near future.

A very enjoyable dance was given, after the play, in which a large number participated and danced to the good music provided.

Get On the Voters' List

E. H. Pidgeon, secretary-treasurer of Inga municipal district, has received a communication from the Dept. of Municipal Affairs, Edmonton, whereby applications from the husband, wife, son, daughter, father or mother of a ratepayer to be placed on the supplementary voters' list will be received up to Saturday, Feb. 25th.

The Domestic Animals Act (Municipalities)

Sale and Redemption of Impounded Animals.

Notice is hereby given under Section 48 of The Domestic Animals Act (Municipalities) that 1 Brown Mare, weight 900 pounds, small star on forehead, was impounded in the pound kept by the undersigned, located on the SE Qr. Sec. 4, Tp. 52, Rg. 3, west of 5th Mer., on the 2nd day of February, 1928, and that the said animal was sold on the 16th day of February, 1928, to Andrew Brass of Duffield, and that the said animal may be redeemed by the owner or owners or on his or their behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the Municipality and the purchaser of the above-mentioned animals.

For information apply to the undersigned.

Here and There

(14)

Quebec City was en fête the better part of a week on the return to a native city of His Eminence Raymond, archbishop, newly created a Cardinal. Ecclesiastical, governmental, civil, military and lay leaders of the community joined in welcoming this prince of the church.

Four hundred thousand motorists from the United States will be touring the highways of the province of Quebec this year, according to the vice-president of the Royal Automobile Club of Canada, interviewed at the Chateau Frontenac, Quebec, this month. It is estimated they will spend over sixty million dollars in the province this coming season.

Edmonton.—Sale of the Lacombe and Northwestern Railway to the Canadian Pacific Railway is announced by the Provincial Premier. The C.P.R. agrees to indemnify the province against future liability on outstanding 6 per cent. bonds for \$278,700 and, in addition, pay \$1,500,000 in cash, at the same time undertaking to construct a 30-mile extension within the next three years.

Calgary.—The Province of Alberta reported a total of 1,120,306 to the United States during the year 1927, according to the annual report of the United States Consul for Calgary district. The total exports show an increase of \$154,450 or 17 per cent. over 1926. Cattle and hogs held a conspicuous place in these exports, the former amounting to \$1,215,480 and the latter to \$282,045.

Winnipeg.—Homestead entries made in the four western provinces in the calendar year 1927 totalled 6,447, as compared with 6,012 the year before—an increase in 1927 of 435. Entries by provinces—1926: 435. Entries by provinces—1926: Manitoba 719 (842), Saskatchewan 2,519 (2,750), Alberta 2,736 (2,155) and British Columbia 113 (154). December filings totalled 485, an increase of 69 with Manitoba 45 (51), Saskatchewan 221 (219), Alberta 215 (133) and British Columbia 6 (7).

Thirteen new ocean liners, at least, of a total of 138,000 gross tons, are expected to enter Montreal during the coming season. Of this total Canadian Pacific vessels make up more than half or 60,000 gross tons. These are the "Duchess of Athol" and the "Duchess of Bedford," of 20,000 gross tons each, and the five Canadian Pacific freighters, the "Beaverburn," "Beaverford," "Beaverbrook," "Beaverhill" and "Beaverdale," each of 10,000 gross tons.

St. John's.—The Harbor Commissioners have now drawn up a \$10,000,000 project of port development, to extend over a 5-year period, subject to the approval of the Minister of Marine. The general scheme includes the construction of one grain conveyor gallery at pier No. 7; a grain jetty, 1,250 feet long; a pier, 1,250 feet long and equipped with four one-storey, fireproof sheds and shipping office; one grain elevator of 2,400,000 bushels capacity with grain conveyor galleries for loading grain at pier No. 7 and the necessary railway tracks, railway, sewerage facilities and water supply to serve the new works.

Calendar.

- February—
- 24—J. R. Schlitt's sale.
- 25—Meeting of Stony Plain U. F. Local.
- 28—Val Urse's sale.
- March—
- 6—John B. Hodgson's sale, at Brightbank.
- 9—Mecklenburg at the Royal Hotel.
- April—
- 6—Good Friday
- 9—Edmonton Spring Livestock Show.
- 18—District Court holds a session at Stony.
